

The Wave Matrix of Psycho-physiology

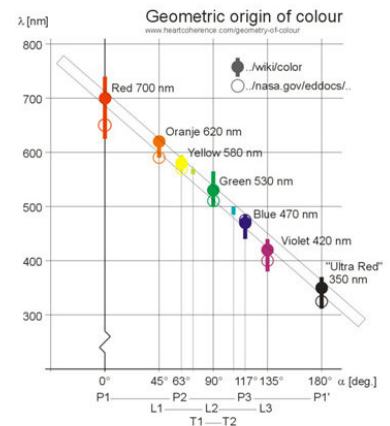

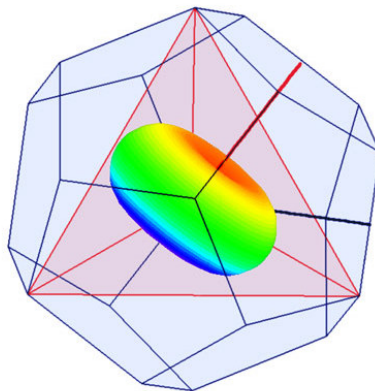

The Cycle of Geometric Projection and Synthesis

The Geometric Origin of Sound

Angle and orbital ratio of toroidal spin (projective geometry) accurately predicts the formants of the vowels of human speech

The Geometric Origin of Color

Angle and interdigitation of creative matrices (synthetic geometry) exactly predict the wavelengths of the primary colors

The Geometric Origin of the Chakra's

4 creative matrices x 2 psycho-physiological phases
x 2 causal phases = 16 functions of Causal Matrix
